## WeRecycle!, Inc. Announces ISO 14001:2004 Certification

<Wallingford, CT - 1/7/08> WeRecycle!, Inc., an industry leading provider of IT asset recovery and recycling services, is now ISO 14001:2004 Certified. The certification addresses WeRecycle!'s Environmental Management System and assures that it complies with the rigorous performance standards set forth by the International Standards Organization (ISO), a group that sets quality and environmental management standards for businesses.

WeRecycle! completed Stage I of the ISO 14001:2004 Audit in November, 2007 and Stage II in December, 2007. Being ISO 14001:2004 Certified verifies that WeRecycle! is minimizing its harmful effects on the environment and is continually working to improve its environmental performance.

"Achieving ISO 14001:2004 certification is a huge stamp of quality for our organization, one that we worked very hard to achieve," said Yvonne Wojcicki, Environmental Health & Safety Manager. "Our customers and key stakeholders can trust that we have become a recycling industry leader effecting positive change in preserving our environment. The WeRecycle! staff stands proud of achieving this important certification and is committed to demonstrating excellence every single day."

### **About WeRecycle!**

WeRecycle!, Inc. is an industry leader in electronics recycling, offering complete management for IT asset recovery, data security, and recycling. WeRecycle! is committed to following globally accepted best practices for managing e-waste, maintaining a strict no landfill, no export, and no use of prison labor policy. A proud signatory of the BAN Pledge of True Stewardship, WeRecycle! affirms a promise to providing environmentally responsible recycling. WeRecycle! is a proud member of NERC (Northeast Recycling Council), NRC (National Recycling Coalition), NAID (National Association for Information Destruction), and ISRI (Institute of Scrap Recycling Industries), among others.

WeRecycle!'s services include, but are not limited to, asset management, data destruction, complete recycling, logistics services, and compliance assistance services. All trademarks are the property of their respective owners.
